

OUR PROGRAMS

EDUCATION SEGMENT

Schools

WOMCY Girls

It is a Cybersecurity program, for girls between 14 and 17 years old, where experiences related to STEM careers are shared.

WOMCY Geek

It is a Cybersecurity program, aimed at girls and boys between 7 and 17 years old, where relevant information about Cybersecurity threats is shared in order to minimize risk.

WOMCY Talks

It is a Cybersecurity program, aimed at men and women over 18, where concepts of Cybersecurity are incorporated through informative talks on: trends, risk and awareness.

Colleges

WOMCY Jobs

It is a program designed to guide university men and women in academic training in cybersecurity through a specialized career plan.

WOMCY Tech

It is a Cybersecurity program aimed at university students (men and women), where cybersecurity issues are incorporated through update talks, gamifications and hackathons.

WOMCY Mentoring

It is a program for the development of soft skills in women who want to grow professionally within a corporation and under the heading of cybersecurity.

CORPORATE SEGMENT

FOUNDATIONS

WOMCY Give

It is a program dedicated to the donation of time, of womcies (volunteers), to organizations and foundations dedicated to low-income children and women, through the execution of one or several Womcy programs.

WOMCY Back

It is a program designed to receive donations of time and money from third parties, based on a Cybersecurity campaign that combines Womcy programs.

WOMCY Talent

It is a program designed to accompany the Human Resources departments of companies in the process of selecting and hiring Cybersecurity specialists.
